

THERE ARE 6 WAYS TO BREAK INTO A DOOR

TYPES OF SECURITY

THINGS THAT MAY CONCERN YOU

PEOPLE THAT MAY HAVE ACCESS TO YOUR KEYS

Unauthorized access could lead to Unauthorized duplication...

We Recommend **medeco** Security Locks

Before you make a buying decision, did you know that there are at least 6 ways to enter a door without authorization?

The door can be unintentionally left open...

By picking the lock...

By using a copied or stolen key...

By drilling the lock...

With force such as kicking the door in...

By wedging the door from the frame.

There are many ways to try to secure your dwelling, and you have to decide which is best for you.

A guard dog...

Physical locks...

A security guard...

Electronic access controls...

A fence...

With alarm systems.

You are probably considering changing or adding to your security because of the many things that should concern you...

An empty house

Vandalism

Personal Injury

Lack of insurance or high deductibles

Loss of personal information or keepsakes

Emotional stress.

As you make your decision, consider who will have access to the keys to your home or office:

A maid or cleaning service

Maintenance workers

A parking lot attendant or valet

A babysitter

A previous owner or tenant

Your garage mechanic

Remember... Unauthorized access could lead to unauthorized duplication.

Always Recommend Medeco High Security Locks.
